What skills or expertise would you like to share (for free) with your neighbors?

We are revamping our website, and will be including a neighbor sharing and barter page (login will be required). Some expertise that your neighbors have offered to share include:

- Car care expertise, i.e. washing, waxing, dash protection, etc.
- Basic computer skills; Teach a paper airplane class (for kids)
- I am a pediatric physician assistant and my husband is a chiropractor so we could give health talks/meetings
- Organic gardening knowledge (mornings only).
- I have a 8 passenger van; willing to transport people to events.
- Teach quilting
- Gardening, recycling, solar power
- Solar energy
- Writing and graphic design (posters, ads, promos, newsletter)

MORE INFORMATION

What would you like to know more about in our community? With enough interest in a topic, we may create a group or hold an informational meeting.

- 1 The history of the homes, schools, buildings.
- 2 Status of Rosedale school building.

I'd be very interested to learn of other neighbors experiences with increased noise (at night especially).

I'm all for anything that beautifies the park, keeps it clean or safe. I'd also participate in anything that enabled the legal creation of an off-leash dog area at the park. And any ideas on how to minimize the less than desirable pedestrians who wander around would be great. (I live on Logan, so I realize it's worse for me than for others.)
